

UNIVERSAL CHANGING TABLE

A Smart Choice for Inclusive Design

Commercial Washrooms. Brought to Life.

It's more than a changing table, it's a welcome sign.

Universal Changing Tables (UCTs) provide safe, hygienic access to public restrooms for individuals who may not be able to use standard restrooms. Caregivers for older children with disabilities or elderly people often struggle to find facilities that meet their personal care needs. Installing a universal changing table improves their ability to participate in daily activities like visiting a zoo or museum, attending a sporting event, traveling, or simply shopping or dining out.

Universal changing tables promote comfort and accessibility, making public facilities more inclusive and welcoming for everyone.

**Developed for those
who require assistance
with personal care needs**

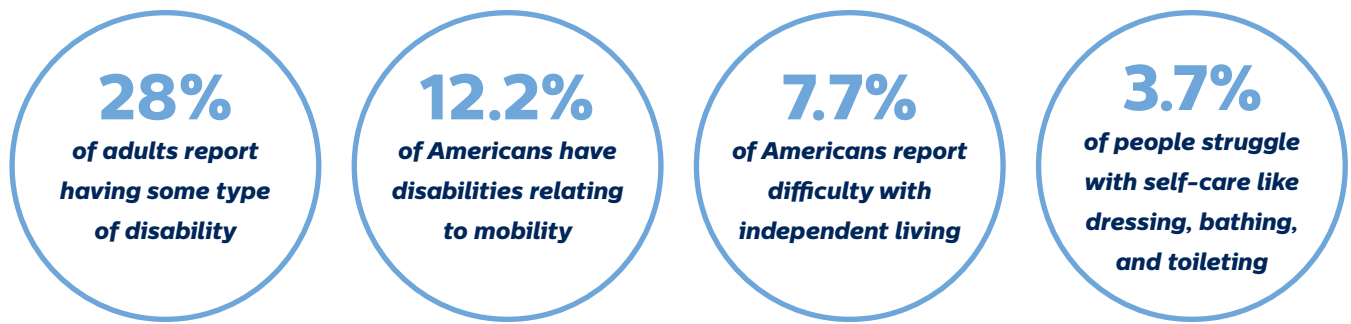

**Designed for comfort
and ease of use**

**Engineered for
safety and durability**

Integrating Universal Changing Tables in Public Spaces

Since 2024 Universal Changing Tables are mandated in public facilities by the International Building Code (E142-21). They are required in many counties and cities across the US with laws or executive orders currently enacted or proposed in many states. Universal Changing Tables bring accessible personal care to the over 9 million people who struggle with self-care needs.

Thoughtfully designed, Bradley's Universal Changing Table provides user comfort, enhanced safety features, ease of use, reliable operation and durability for use in public restrooms. More than meeting regulations, integrating Universal Changing Tables into restroom designs creates spaces that are welcoming for everyone.

Personal Care and Comfort

- Large, contoured changing table offers maximum support
- Wraparound styling ensures trouble-free transfer
- Steady, quiet operation for user comfort

Easy Installation and Use

- Mounts to most existing walls for quick setup without costly retrofit
- Dual-control buttons ensure easy height adjustment for smooth transfers and comfortable positioning
- Handy attached power cord plugs in directly to GFCI outlets/protected circuit or hardwire

Reliable Performance

- The only table in its class engineered, manufactured and warranty serviced in the United States
- Direct attached actuator ensures a fluid, lag-free experience and superior performance
- Robust structure provides strength and reliability
- Backup battery provides safe, continued use even during power outages

Safety for All

- Safe working load of up to 500 lbs
- Automatic retracting feature stops operation and reverses direction if it detects an obstruction
- Green and red indicator lights and sounds provide an extra layer of safety

Clean Design

- IPX6 rating enables safest, most thorough cleaning on the market
- Changing surface is free of exposed fasteners, eliminating hard-to-clean cracks and crevices
- Vacuum-formed changing surface is made of ABS plastic that resists bacteria without added chemicals

Adjustable height table with soft-plunge guard

Robust structure mounts
to most existing walls

Specifications

Table Surface Size:

76.5" x 34.75" overall

70.5" x 30.125" usable

Table Depth:

9.5" when closed

41" when open

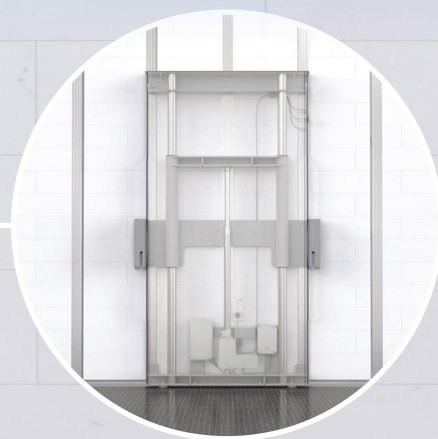

Height-adjustable from 16"–39"

Supports up to 500 lbs

Soft-plunge release table
and automatic retracting
safety feature

Mounts to most existing walls with standard load bearing studs (avoiding costly and time-consuming wall prep)

Smooth dual-controlled buttons to adjust height

Rated for IPX6 water ingress protection for safest cleaning on the market
