

Evero[®] Matte

CAST-FORMED NATURAL QUARTZ

MATERIAL

Introducing the new Evero[®] Matte Mason Series, a fresh new quartz option with a stone-like appearance for handwashing fixtures in commercial restrooms.

Evero Matte natural quartz can be cast-formed into round and curved shapes, is highly durable and will resist stains and cracks for a lifetime.

Available in Verge[®] LVA, LVQ, and LVS Series handwashing basins. A high-end look for commercial applications in a virtually maintenance-free, natural looking material and colors with a pure organic appearance.

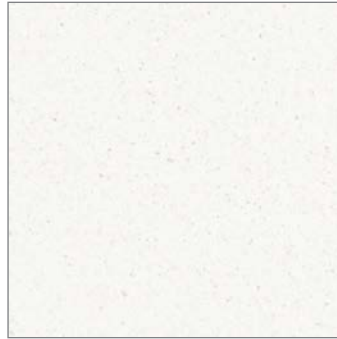

A durable, long lasting material, non-porous, seamless and easy to clean and maintain. The absence of cracks or crevices prevent bacteria and mold from accumulating. Chemical, stain, impact and scratch resistant and it's repairable. Evero Matte's silky smooth surface repels water to resist unsightly water marks on the surface. Also resistant to heat, water and UV light. Homogeneous compositions allow for even distribution throughout the material.

Mason Series is made from a blend of bio-based resin and a unique mixture of extra fine grade quartz.

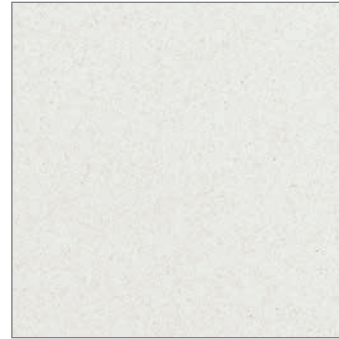

Evero Matte Mason Series has achieved GREENGUARD GOLD Certification and participate in mindful MATERIALS Library.

Evero[®] Classic

CAST-FORMED NATURAL QUARTZ

MATERIAL

Evero[®] Classic, polished natural quartz surface, is the first natural quartz material that can be cast-formed into round and curved shapes. Imagine graceful curves, soft radius edges, elegant shapes and effortless beauty that will last a lifetime.

Available in all Verge[®] handwashing basins. A high-end look for commercial applications in a virtually maintenance-free, natural looking material in colors inspired by nature's beauty.

A durable, long lasting material, non-porous, seamless and easy to clean and maintain. The absence of cracks or crevices prevent bacteria and mold from accumulating. Evero is chemical, stain, impact and scratch resistant and it's repairable. Also resistant to heat, water and UV light. Homogeneous compositions allow for even distribution throughout the material.

Geo Series fuses the beauty of quartz with the durability of granite. Made from a blend of bio-based resin, natural quartz, granite and other exotic minerals.

Pearl Series mesmerizes with a luminous blend of bio-based resin, natural quartz and seashells.

Evero Classic Geo and Pearl Series have achieved GREENGUARD GOLD Certification and participate in mindful MATERIALS Library.
