## Verge® Wash Basin – LVL-Series

- Sleek, rimless design minimizes standing water
- Faucet pad allows space for user's personal items
- Single piece molded design eliminates caulk lines and seams
- Strainer design accommodates standard 4" plunger
- Unique overflow cover allows access for overflow cleaning
- Compatible with Verge™ deck-mounted soap dispensers and faucets

### Specifications

Accommodates one or two users. The units handle washroom traffic quickly and economically, while providing each user with personal space. The Verge® Wash Basin is designed with standard lavatory spacing positioned on 30° centers.

### Product Compliance

#### Listed by IAPMO R&T to

- Uniform Plumbing Code (UPC)
- National Plumbing Code of Canada
- International Plumbing Code (IPC)
- IGC 156 and the requirements of CSA B45.5/IAPMO Z124 and ASME A112.18.1/CSA B125.1

#### Complies with

- ADA
- ICC/ANSI 117.1
- Enhanced Reach (IC 117.1 606.5)
- TAS
- NSF/ANSI 372

#### Listed by UL Environment to

- GreenGuard Gold

- ✓ Serves the American Disabilities Act and ICC/ANSI 117.1 guidelines, citations 306, 308, 309.4, 606.4, 606.5 when installed according to these requirements.

Consult local codes and standards.

### Accessibility

Accessibility Code	Rim Height (maximum)	Notes
ADA	33¾" (857)	At least one basin must meet dimensional requirements and have proper reach, knee, and toe clearance.
ADA/JUV Juvenile ADA	30¾" (781)	At least one basin must meet dimensional requirements and have proper reach, knee, and toe clearance.
Enhanced Reach IC A117.1 606.5		Per IBC under 1109.2.3, if there are 6 or more lavatories, at least one lavatory shall meet the 11" (279) maximum reach depth.

Patents Pending

### Construction

#### Basin

Evero® Geo Series is a natural quartz surface made from a blend of bio-based resin, natural quartz, granite, and other exotic minerals. It is made of 25% recycled content.

Evero Pearl Series is a natural quartz surface made with bio-based resin, sea shells, recycled glass, and natural quartz. It is made of 70% recycled content.

Variations in the natural stone color, pattern, size, shape, and shade are inherent. Due to these unique characteristics, please expect subtle shade variations when units are installed adjacent to each other.

#### Access Panel

Minimalistic panel is composed of decorative 300 series stainless steel. Water supplies, valves, waste assembly, and other optional items are concealed within the panel/frame.

#### Support Frame

Basin assembly and access panel are secured to a heavy gauge stainless steel support frame mounted to wall.

#### Faucet Options

Choose from our 0.35 gpm (1.30 Lpm) or 0.50 gpm (1.90 Lpm) Verge Faucet – Crestt, Metro, Linea, and Zen Series. 4" centerset and centershank faucet drillings are available for faucets by others. To maximize handwashing space and minimize splashing, faucets by others require length from faucet base centerline to aerator centerline to be 4" to 5.5" and height from faucet base bottom to aerator bottom to be 3" to 6". Spray pattern aerators require a 0.35 gpm (1.30 Lpm) flow or less. 0.5 gpm (1.90 Lpm) aerators can be laminar or aerated flow. Optional 4" centerset trim plates are available for additional vandal resistance.

#### Soap Dispensers

Choose from our Verge Deck-Mounted Soap Dispensers – Crestt, Metro, Linea, and Zen Series. Soap drillings available for soap by others. To achieve Enhanced Reach, soap dispensers require a 4" minimum length from soap base centerline to soap outlet.

This plumbing fixture is designed for hand washing only. It is not intended to dispense water for human consumption through drinking or for preparation of food or beverages.

For more information on Evero Natural Quartz Surface, faucets, valves, transformers, and the soap dispensers, please visit [bradleycorp.com](http://bradleycorp.com).
