

# SLIMMER PROFILE. PURELY ELECTROSTATIC.

## ThinAir® HAND DRYER HEPA FILTER KIT

How do you improve on 99.999% virus removal?<sup>1</sup> Go electrostatic. Our new electrostatic HEPA filters offer the same virus and bacteria protection with more durability and improved airflow for faster drying. New electrostatic HEPA filters are now available as an option on new ThinAir Hand Dryers.

<sup>1</sup>Based on testing performed by LMS Technologies, 2023.

# ThinAir HAND DRYER HEPA FILTER

## ThinAir HEPA FILTER

PART #40521

Part ID	Description
40521	ThinAir HEPA Filter Replacement
40532	ThinAir HEPA Pre-Filter Replacement Metal Mesh

### COMPONENTS/FEATURES OF THINAIR HEPA FILTER KIT

- ✔ **HEPA Filter**  
 HEPA Filtration System: Removes 99.999% of viruses and 99.97% of potentially present bacteria<sup>1</sup> at 0.3 microns from the airstream. Replacement HEPA Filters are available separately (Part #40521).
- ✔ **Pre-Filter**  
 Corrosion resistant stainless steel mesh screen that traps large particles and protects the HEPA Filter media. The Pre-Filter slides in above the HEPA Filter, allowing it to be removed without any tools, for rinsing and cleaning of debris. Replacement Pre-Filters are available separately (Part #40532).
- ✔ **Filter Adapter**  
 This component serves as the connecting piece between the HEPA Filter and the motor. It creates an airtight seal to the motor and the HEPA Filter using perimeter closed-cell gaskets.

### MAINTENANCE

**⚠ WARNING: TO REDUCE THE RISK OF ELECTRIC SHOCK, FIRE & PERSONAL INJURY, INSIDE CLEANING MUST BE PERFORMED BY QUALIFIED SERVICE PERSONNEL.**

The ThinAir HEPA Filter includes a durable and removable stainless steel mesh Pre-Filter that can be cleaned, rather than replaced, to improve reliability and extend the lifespan of the filter. It is generally recommended that the Pre-Filter be inspected and cleaned if performance diminishes. If the dryers are installed in an environment that contains excessive lint, dust or other particles in the ambient air, periodic cleaning is recommended. The manufacturer recommends replacing the HEPA Filter once annually, depending on usage.

**⚠ DO NOT CLEAN THE HEPA FILTER OR ALLOW IT TO COME INTO CONTACT WITH WATER**

### LIMITED WARRANTY

The ThinAir HEPA Filter shall be guaranteed to be free from manufacturing defects for a period of one (1) year. Warranty shall consist of replacement parts, and may require the return of the defective parts at manufacturer's option.

### EXISTING UNITS

Previously installed ThinAir Hand Dryer units cannot be retrofitted with HEPA filters. Subassembly with HEPA filter may be purchased if you would like to upgrade your unit. Contact customer service at (800) 255-9235 for more information.

## ThinAir HEPA PRE-FILTER
