The New SloanStone™ Drain Deck Lavatory System — The Perfect Match

The performance and dependability of Sloan Optima® Faucets are combined with the durability and versatility of Solid Surface in the new SloanStone™ Lavatory System. The unique sloped surface prevents water from pooling anywhere on the counter top, ensuring a dry surface while providing a sleek, clean and level appearance.

Hygienic and durable, SloanStone™ is stain, chemical, scratch and impact resistant. A rugged stainless steel frame supports the structure and ensures its unrivaled stability and strength, while still providing the fastest and easiest installation and maintenance available.

SloanStone™ Sinks can be provided with any one of Sloan's many battery or hardwire Optima® sensor activated faucets, providing the ultimate in water conservation and hygiene. These features, combined with the unique styling and myriad color options of our solid surface, make SloanStone™ the perfect choice for virtually any restroom installation.

The lavatory system is designed to comply with all applicable ADA, UFAS, Texas Accessibility Standards (TAS), ANSI Z124.3 and Z124.6 accessibility guidelines. See Variable Mounting Height Chart on Page 2.

FAUCET OPTIONS

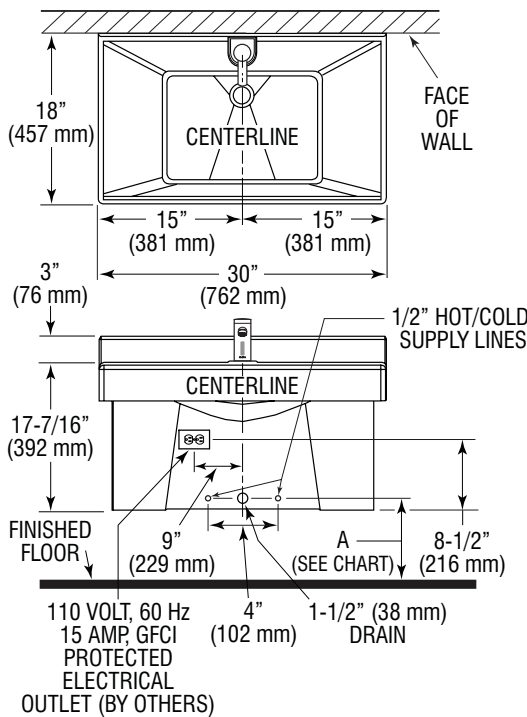

OPERATION

As the user's hands enter the beam's effective range, the beam is reflected back into the sensor receiver and activates the solenoid valve allowing water to flow from the faucet. Water will flow until user's hands are removed or until the faucet reaches its automatic time out limit setting.
