**XLERATOR® HAND DRYER**

**TECHNICAL DATA SHEET**

**MODELS:** XL - BW W GR C SB SI SP  
**OPTIONS:** -1.1N (Noise Reduction Nozzle) -H (HEPA Filter) -VOLTAGE (See Chart)

---

**PERFORMANCE**

<table>
<thead>
<tr>
<th>DRY TIME: 8 SECONDS*</th>
<th>ENERGY PER USE: 3.7 Wh*</th>
</tr>
</thead>
</table>

**ADJUSTABLE SOUND LEVEL:** 65 - 75 dB  
**ADJUSTABLE VELOCITY:** 13,000 - 20,000 LFM  
**ADJUSTABLE HEAT RANGE:** 72°F - 135°F  
**FLOW RATE:** 42 - 63 CFM  
**WATTAGE:** 1490 Watts (Heat On), 425 Watts (Heat Off)

**CONSTRUCTION**

A. All covers will be fastened to a base plate by two chrome plated tamper-proof bolts. Cover shall be one of the following:

- Die-cast zinc alloy – One-piece, heavy-duty, rib-reinforced, lightweight, unbreakable, rustproof and all exposed surfaces shall be bright chrome plated or finished with chip-proof, electrostatically applied epoxy paint.
- Bulk Molding Compound (BMC) – White reinforced thermoset resin.
- Stainless Steel – with a brushed finish.
- Special Image – Digital image applied to die-cast or stainless steel covers using patented Kolorfusion Sublimation Decoration process.

B. Base plate shall be equipped with (3) 7/8” (22 mm) diameter holes, the bottom one is suitable for use with surface conduit.

C. All internal parts shall be coated according to Underwriters’ Laboratories, Inc. requirements.

D. Entire mechanism shall be internally grounded.

E. Options

- HEPA Filtration System: Filters 99.97% of bacteria at 0.3 microns from the air stream.
- 1.1” Noise Reduction Nozzle: Reduces the sound level by 9 decibels by significantly decreasing air deflection noise while only increasing dry time by approximately 3 seconds.

F. Accessories (optional)

- Antimicrobial Wall Guards: 89W (Microban® White), 89B (Microban Black), 89S (Brushed Stainless Steel)
- XChanger Paper Towel Retrofit Kit: 40550, 40551 (ADA Height)

**ADA Recess Kit: 40502**

**MECHANISM**

A. New 50% longer life motor shall be a thermally protected, series commutated, through-flow discharge vacuum motor/blower (9/8 hp) and protects against the risk of early failure and reliably provides air flow of up to 20,000 LFM (linear feet per minute). Includes a washable metal mesh filter for more reliable performance.

B. Heating element (970 W) is constructed of Nichrome wire and mounted inside the blower housing, thereby being vandal resistant. It shall be protected by an automatic resetting thermostat, which shall open whenever air flow is cut off and shall close when flow of air is resumed. It shall produce an air temperature of up to 146°F (63°C) at a 72°F (22°C) ambient room temperature at the hands (4 inches [102 mm] below air outlet).

C. Control assembly is activated by an infrared optical sensor located next to the air outlet. The dryer shall operate as long as hands are under the air outlet. Control includes a speed and sound control mechanism, adjustable heat control with High, Medium, Low and Off settings and a filter sensor which is activated should the filter become clogged. There is a 35-second lockout feature if hands are not removed. Sensor equipped with externally visible red LED light that flashes error codes to assist in troubleshooting.

**LIMITED WARRANTY**

The dryer shall be guaranteed to be free from defects for a period of seven (7) years. Warranty shall include labor performed at factory as well as the repair or exchange of defective parts, at manufacturer’s option.

**QUANTITY RECOMMENDATIONS**

One dryer for every two washbasins is sufficient for most applications. If restroom traffic is unusually heavy, we suggest one dryer per washbasin in small installations and two dryers for every three washbasins in larger installations. When a 54” washfountain is used, we suggest four to five dryers.

**UL Environment**

UL Environment published the first global Product Category Rules (PCR) for Hand Dryers. The PCR created evaluation methods through industry consensus that compare products’ environmental impact and performance. Third party testing results then allow for the creation of certified Environmental Product Declarations (EPDs).

An EPD is a comprehensive, internationally-harmonized report documenting a product’s environmental impact over its lifecycle. They enable specifiers and buyers to make a true apples-to-apples comparison of products and make more informed product selections. Excel Dryer received the industry’s first certified EPDs.
